Summary

As a Front-end Developer with 2 years of experience I have honed my skills in developing and maintaining front-end web applications. Proficient in using HTML, CSS and JavaScript plus modern libraries and frameworks, to develop effective code according to client requirements. Proven track record in develop and support project code, working with third-party APIs, and documenting code changes. Additionally, I also possess fast learning skill and team-player skills that enable me to work effectively with others. Seeking to apply my expertise at new company, solving more complex problems and continuously learning from the experts.
